

Potentially infectious medical waste in the French overseas territories: the General Rapporteur announces that an objection concerning an anticompetitive agreement has been notified

Published on October 02, 2024

The General Rapporteur of the *Autorité de la concurrence* indicates that an objection has been notified concerning an anticompetitive agreement in one of the French overseas territories, which is likely to have had effects on the market for the treatment of potentially infectious medical waste and the related market for the collection and transport of such waste

PRESS RELEASE OF 2 OCTOBER 2024

Potentially infectious medical waste in the French overseas territories: the General Rapporteur announces that an objection concerning an anticompetitive agreement has been notified regarding an agreement that lead to the creation of a monopoly
