

# The Autorité is reforming, on the basis of existing legislation, its procedure for processing business secrets during investigations

Published on January 14, 2025

---

The aim of the reform is to reduce the processing time of business secrets through:

- rigorous application by the parties of the concept of business secrets;
- a reduction in multiple decisions on the treatment of business secrets. The aim is to adopt, in principle, a single decision by party concerned, granting, partially refusing or completely refusing protection and, where applicable, a single decision lifting such protection.
