Producers and processors are consolidating upstream, while retailers are merging downstream...

Amid heightened concerns about consumer purchasing power, what are the trends and dynamics shaping the food retail landscape?

Through two roundtable discussions, the webinar will unpack the major shifts transforming a key strategic sector.

The webinar will also consider how competition law plays a role at each stage of the value chain, ensuring that consumers benefit from competition not only in terms of prices but also in terms of service quality and choice, tailored to local needs.

The discussions will be held in French.
