The General Rapporteur of the Autorité de la concurrence indicates that unannounced inspections were carried out in connection with the recruitment and supply of human resources in the IT services sector

Published on November 27, 2026

Following authorisation from a liberty and custody judge, the Investigation Services of the *Autorité de la concurrence* carried out unannounced inspections on 26 November, at the premises of companies suspected of having implemented anticompetitive practices relating to the recruitment and supply of human resources in the IT services sector.
