Charter of values

Independence, dialogue, commitment, openness and striving for excellence, values for which the *Autorité* stands on a daily basis.

Our motto: competition, for the benefit of all!

The charter of values sets out the values that guide the action of the *Autorité de la concurrence* in its day-to-day work and applies to everyone who works within the *Autorité*.

The *Autorité* also complies with the principles laid down in its ethics charter and with the values of the French Public Service (*Service public*), of which public interest and impartiality rank first and foremost.
