**The General Rapporteur of the *Autorité de la concurrence* states that unannounced inspections were carried out on September 15 in the sector of manufacturing and distribution of sandwiches intended to food supermarkets.**

**> *Version française***

On September 15th, following authorisation from the ~~liberty and custody judge,~~ the investigation services of the *Autorité de la concurrence* raided companies suspected of having implemented anti-competitive practices in the sector of manufacturing and distribution of sandwiches intended to food supermarkets.

Such interventions do not, of course, prejudge the guilt of the companies involved in the alleged practices, which only a full investigation into the merits of the case could establish, if appropriate.

If the *Autorité* decides that there are no grounds to further investigate or closes the case to the benefit of the raided companies, it will inform the public thereof through a press release.
