Following authorization from the liberty and custody judge, the Investigation Services of the *Autorité de la concurrence* have raided yesterday the premises of companies suspected of having engaged in possible anticompetitive practices in the road freight transport sector.

Such interventions do not, of course, pre-suppose the existence of a breach of the law which could be imputed to the companies involved in the alleged practices, which only a full investigation into the merits of the case could establish, if appropriate.

The *Autorité* will not comment on the identity of the companies nor on the practices implemented.
