

Freedom of establishment of notaries, court bailiffs and judicial auctioneers: proposed maps for 2021-2023

Published on April 28, 2021

Due to the health emergency, the *Autorité* has taken a particularly cautious approach in developing its proposed map for the establishment of new notaries and overhauling the proposals it issued in December 2019 for court bailiffs and judicial auctioneers.

It therefore recommends the free establishment, by 2023, of 250 new notaries, 50 new court bailiffs and no judicial auctioneers, this last profession having been the most severely affected of the three by the health emergency.
