# Dawn raids in the collection and use of pharmacy data sector

Published on July 09, 2021

---

The General Rapporteur of the Autorité de la concurrence indicates that unannounced inspections have been carried out in the collection and use of pharmacy data sector.

Following authorisation from the liberty and custody judge, the investigation services of the Autorité de la concurrence have raided yesterday the premises of 3 companies and a professional body suspected of having engaged in possible anticompetitive practices in the collection and use of pharmacy data sector.

Such interventions do not, of course, pre-suppose the existence of a breach of the law which could be imputed to the companies involved in the alleged practices, which only a full investigation into the merits of the case could establish, if appropriate.

The Autorité will not comment on the identity of the companies nor on the practices implemented.
