The General Rapporteur of the Autorité de la concurrence indicates that unannounced inspections have been carried out in the agricultural supply sector

Published on May 13, 2022

Following authorisation from the liberty and custody judge, the investigation services of the Autorité de la concurrence have raided yesterday the premises of companies suspected of having engaged in possible anticompetitive practices in the agricultural supply sector.

Such interventions do not, of course, pre-suppose the existence of a breach of the law which could be imputed to the companies involved in the alleged practices, which only a full investigation into the merits of the case could establish, if appropriate.

The Autorité will not comment on the identity of the companies nor on the practices implemented.
