Agrifood : The Autorité de la concurrence takes note of the decision taken by the Euralis and Maïsadour groups to withdraw their plans to create a joint venture in the fattened duck sector

Published on August 31, 2023

The *Autorité* notes the withdrawal announced by Euralis and Maïsadour of their plan to create a joint venture that would have brought together the Maïsadour Group's fat palmipeds smoked fish and food retail distribution activities, Delpeyrat and Comtesse du Barry and their subsidiaries, and the fat palmipeds and food retail distribution activities of the Euralis Group, carried out by Euralis Gastronomie and its subsidiaries.

This transaction could have presented high competitive risks, particularly in the downstream markets for the marketing of fattened duck products to mass retail distribution (hereafter "GMS") and out-of-home catering (hereafter "RHF").
